

【Topic Scopes】

Included but not limited

- Active Defense Systems
- Security in Cloud and Grid Systems
- Hardware Security
- Adaptive Defense Systems
- Security in E-Commerce
- Identity Management
- Intelligent Defense Systems
- Applied Cryptography
- Security and Privacy in Smart Grid
- Insider Threats
- Authentication
- Internet and Network Forensics
- Biometric Security
- Intrusion Detection and Prevention
- Complex Systems Security
- Security Policy
- Key Distribution and Management
- Database and System Security
- Security Protocols
- Large-scale Attacks and Defense
- Data Protection
- Security Simulation and Tools
- Malware
- Data/System Integrity
- Security Theory and Tools
- Network Resiliency
- Distributed Access Control
- Standards and Assurance Methods
- Network Security
- Distributed Attack Systems
- Trusted Computing
- RFID Security and Privacy
- Denial-of-Service
- Trust Management
- Security Architectures
- World Wide Web Security
- Security for Critical Infrastructures
- High Performance Security Systems
- Security in P2P systems

【Welcome to ICNS 2020】

ICNS 2020 will be held in **Tokyo, Japan** during **December 18-20, 2020**. It is the workshop of ICNCC 2020, instructed by SCIEI, co-sponsored by Singapore Institute of Electronics and Chengdu Zonghang Exhibition & Service Co., Ltd. ICNS 2020 will be a remarkable event which brings together professors, researchers and students in the field of Network Security, making the conference a perfect platform to share experience, foster collaborations across industry and academia, and evaluate emerging technologies across the globe.

Submissions

Please submit your manuscript through the following link:

<http://confsys.iconf.org/submission/icns2020>

Full Paper Template Download:
